About

I'm a Creative **UI & UX designer**, **HTML Developer**, and **WordPress developer** based in Indore (Madhya Pradesh) India. I am having 12 years of experience in relevant field.

My expertise lies in conceptualizing and designing engaging software products that are both aesthetically appealing and highly functional. With strong problem-solving abilities and skills.

I am able to deliver effective **"USER-FRIENDLY DESIGN"** solutions that satisfy the needs of both the customer and the end-user.

Experience

- Sr. UX UI Designer**
Imenso Software, Indore June 2017 to June 2024

As a UI/UX design team lead, I am responsible for supervising the design process and ensuring the creation of visually appealing and user-friendly products for our target audience.
- Sr. UX UI Designer**
Chapter247 Indore Dec 2016 to May 2017

As a Senior UI/UX Designer, my role was involves designing user-friendly interfaces through research, wireframing, and collaborating with other teams to create visually appealing products.
- Sr. Web Faculty**
Framebox Indore Sep 2015 to Dec 2016

I trained individuals and teams in web design and user interface development, focusing on layout, typography, color theory, and imagery to improve the user experience and website effectiveness.
- Sr. Web Designer**
MMF Infotech, Indore Aug 2014 to Sep 2015

As a Senior UI/UX Designer I was design user-friendly interfaces, conduct research, implement frameworks, and collaborate with cross-functional teams to create high-quality digital experiences.
- Web Designer**
WhitePaper, Indore Jan 2013 to July 2014

As a web designer, I used to create websites and was not charged any maintenance, along with that I also used to do graphic related work.

Soft Skills

- Conduct design research to understand user needs, develop user personas, and create a strategy based on insights and business goals.
- Focus on UX design for an intuitive product, implement adaptive design for various devices, and design seamless interactions.
- Conduct usability testing, create low to high fidelity prototypes, and use wireframing, storyboarding, and contextual research to refine concepts.
- Stay updated with UI/UX trends, design user-friendly interfaces, and create mockups for stakeholders.
- Specialize in designing mobile apps, Power BI screens, and game screens.
- I utilize AI tools and ChatGPT to enhance design and content creation, ensuring innovative, efficient, and high-quality results for various projects.
- Use 2D animation and video editing to create engaging content.
