

VISHAL GOUD

Senior UI/UX Designer | Design System | Visual Design | Frontend Developer

Vishalgoud81@gmail.com | +91 81034-96299 | +91 79993-82252

Linkedin | Dribbble | Behance | Personal Profile

Senior Visual Designer with 12+ years of experience crafting polished, cohesive digital experiences for agencies, enterprise products, and SaaS platforms. Deep command of typography, colour, layout, and visual hierarchy – with a strong eye for craft and consistency across web and mobile. Experienced in building and evolving design systems, defining visual languages, and translating complex product requirements into refined, high-quality interfaces. Comfortable mentoring designers, guiding design reviews, and working closely with engineering teams for pixel-perfect implementation. Proficient in Figma, Framer, Adobe Creative Suite, & AI-assisted design workflows.

CORE SKILLS & TOOLS

UI Design & Visual Design: Typography, Colour Theory, Layout & Grid, Branding, Visual Identity Systems, Design Systems, Component Libraries, Interaction States, Micro-interactions, Responsive & Mobile-first Design

UX: User Research, Wireframing, Prototyping, Information Architecture, Usability Testing, UX Audits

Growth: A/B Testing, Conversion Optimization, Analytics-driven UX, Power BI UI

Tools: Figma, Adobe XD, Framer, Adobe Creative Suite, Canva, CorelDraw.

Frontend: HTML5, CSS3, SASS/SCSS, Tailwind CSS, Bootstrap, Material UI, JavaScript, jQuery, WordPress.

Collaboration: ChatGPT, Claude, Cursor | Agile/Scrum, Figma Dev Mode, Jira, Confluence, Stakeholder Presentations

KEY ALIGNMENT

- **Visual craft & polish:** 12+ years delivering high-quality UI across web and mobile with meticulous attention to typography, colour, grid, spacing, and interaction states.
- **Design systems:** built and maintained scalable component libraries and visual languages across multiple product lines, improving team efficiency by 35%.
- **Figma & Framer expertise:** primary tools for end-to-end design work – components, auto-layout, variants, prototyping, and developer handoff.
- **Branding & visual identity:** background in instructional and visual design, plus extensive experience defining and maintaining consistent visual languages across client-facing products.
- **Micro-interactions & motion awareness:** familiarity with interaction states and motion principles applied through Framer and prototyping tools to communicate feel and flow.
- **Mentoring & quality bar:** led and mentored junior designers at Imenso Software; established design review processes and quality standards across teams.
- **AI-enhanced workflow:** uses ChatGPT, Claude, and Cursor to accelerate ideation, exploration, and iteration – directly aligned with Monsoonfish's progressive studio culture.

EXPERIENCE

Visual Designer

Deloitte US India, Pune (Contract, Remote)

(Sep 2025 to March 2026)

- Designed high-quality visual interfaces and reusable UI components for enterprise dashboards, maintaining strict brand and visual consistency.
- Refined typography, colour, and layout systems through iterative design cycles and stakeholder feedback.

- Collaborated with product, UX, and engineering teams in Agile environments to deliver implementation-ready, polished designs.

Sr. UI/UX Designer & Frontend Designer

(May 2025 to Aug 2025)

Resolvebeyond, Ahmedabad (Hybrid)

- Owned visual direction for SaaS products — defining UI language, component patterns, and interaction states across web and mobile.
- Created detailed high-fidelity UI with careful attention to typography, grid, colour hierarchy, and micro-interactions.
- Conducted UX audits and drove iterative improvements, improving product usability and visual consistency.

Visual Design Consultant

(Sep 2024 to Till Now)

Ecubix, Ahmedabad (Contract, Remote)

- Delivered visually engaging, on-brand UI for web and mobile applications with a focus on craft and scalability.
- Improved platform usability by 25% through design iterations grounded in testing and user feedback.
- Built and maintained a design system ensuring visual consistency across multiple product screens and flows.

Sr. UI/UX Designer

(June 2017 to June 2024)

Imenso Software, Indore

- Owned visual direction and design systems for 10+ enterprise and SaaS products over a 7-year tenure — including dashboards, portals, and workflow-driven applications.
- Built scalable design systems (Figma component libraries, style guides, pattern libraries) that improved team efficiency by 35% and ensured consistency across product lines.
- Defined typography, colour, and layout languages for each product, establishing and guarding a high visual bar across all screens and states.
- Mentored junior designers; led design reviews and championed craft quality across cross-functional Agile teams.
- Worked closely with developers for design handoff, ensuring faithful, pixel-level implementation across breakpoints.

Sr. web faculty

(Sep 2015 to May 2017)

Frameboxx, Indore

- Trained professionals in UI/UX principles, visual design, typography, and responsive design — demonstrating strong communication and design articulation skills.
- Mentored students through real-world design projects, reinforcing attention to craft and design thinking.

EDUCATION CERTIFICATES

MBA Assam Down Town University (2015–2017)

B.com Devi Ahilya University (2000–2003)

Greenboxx Certificate from **Frameboxx**

PGDM (Post Graduate Diploma in Multimedia) from **Xplora Design Skool**

Work with Components in Figma from **Coursera Project Network**

Website UI/UX Designing using ChatGPT from **Simplilearn**
